## The Fruit of our Labor

Over the last few months God has allowed us to see some of the fruit of our labor in a few ways. Another class graduated from SAST and we look forward to seeing God use them in the years ahead. At General Council we saw several of our former students get ordained and had a chance to hear how God is using them in their places of ministry. We have also had the pleasure of visiting several of our students in their ministry contexts; and we got to take part in the the lead pastor installation service for one of our graduates. There are few things that bring us more joy than watching students we have poured ourselves into thriving in ministry. Watching these men and women fulfill God’s calling on their lives has been so rewarding. Thank you for partnering with us. Just as we have had a small glimpse into the lives and ministries of our students; we hope this is a snap shot for you of the impact your support has had in South Africa. May the Lord return to you a harvest for the seed you have sown in our lives and ministry.
